

INVITATION

You are cordially invited to the **1st national event of the project "SPOZNAJ - Supporting the implementation of Open Science principles in Slovenia"**, which will mark the beginning of the project and together with the most important stakeholders outline the guidelines for the implementation of the national open science policies. We will also present some successful practices of this kind in the European Research Area.

Within the framework of the SPOZNAJ project, the Central Technical Library at the University of Ljubljana and 20 Slovenian public research organisations will align their practices with the *Resolution on the Scientific Research and Innovation Strategy of Slovenia 2030*, the *Scientific Research and Innovation Activities Act*, the *Public Information Access Act*, the *Regulation on the Implementation of Scientific Research in Alignment with the Principles of Open Science*, and the practices and principles of open science in the European Research Area. Open science encompasses open access to research results, the adoption of responsible metrics for assessing the quality and impact of scientific research, and the engagement of citizens in scientific research activities. The project receives co-financing from the Ministry of Higher Education, Science and Innovation and the European Union – NextGenerationEU through the national Recovery and Resilience Plan.

The 1st national event of the SPOZNAJ Project will take place on **Thursday, 5 October 2023**, from **9:00 to 15:00** in the **ZRC SAZU Atrium**, Novi trg 2, 1000 Ljubljana, according to the attached programme. The event will also be **livestreamed via Zoom** with simultaneous interpretation from Slovenian into English.

To facilitate the organisation, all participants are kindly requested to register their attendance, namely:

- for **in-person** attendance: through the [Ticket Tailor event ticketing platform](#),
- for **online** attendance: through the [Zoom registration form](#).

We look forward to your participation.
